Amendment to the Drawings:

The attached sheet of drawings 2/9 includes changes to Figs. 5A and 5B. This sheet, which includes Figs. 5A and 5B, replaces original sheet including Fig. 5A and 5B. In both figures the via holes 56 with via interconnects 56' had been shaded by parallel criss-crossing lines. The numeral 56' has been added and indicates the presence of the via interconnects described in paragraph [0039]. Furthermore, Figure 5B has been amended to better comport with Fig 5A and the text of the Applicant's specification, and now clearly shows that the electrolyte sheet contains via holes situated inside the portions of the electrolyte sheet called via gallery(s), and as shown in Fig 5A, there are no holes in the via galleries, except for the vias (via holes) 56.
